NED McINTOSH
Guidance Counselor

The guidance and counseling program in our school attempts to assist all pupils in assessing and understanding their abilities, aptitudes, interests and daily educational problems and to provide the school staff and parents with this information. It tries to help each pupil achieve his future vocational and educational goals by providing information and guidance in the areas.

Through insight and patient understanding we try to help our boys and girls maintain normal personal, social and educational growth so that they may become useful, efficient and happy citizens.

MISS HAMMAM
Librarian

The Waterloo High School library is gradually growing to meet the standards required by the High School Library Association.

Last year we started building the literature collection. During this year an effort has been made to build an up to date history collection.

The library has an up to date reference department with several complete sets of encyclopedias.

Our library is better equipped than most school libraries that also have access to a public library.

The 1963-64 Student Council was chosen last spring, consisting of two members from grades seven through twelve.

Last fall the council went to the National Association of Student Councils in Indianapolis. They have gained many new ideas for this year.

The Student Council is a go-between the student body and the faculty. Some of the projects for the coming year include: the bookmobile, the fund for Officer Tippet, and the setting of a noon schedule. These projects are set up to benefit the entire student body.
